

Mission Moment - February 9, 2020 Noel, Missouri Refugees

Please play the video provided on your Roku device.

Noel, Missouri, with very few people knowing, is home to hundreds of refugees from over 10 different countries, a few of them from unreached people groups. There is a large group of Somali refugees, which is one of the harder people groups in the world to reach.

Noel is less than 2 hours from our front step, and God has brought these people to us. We are praying about forming a partnership with Community Baptist Church and Pastor Josh Manning as they strive to reach out to the vast need in the area.

Please, be in prayer about this partnership and think of ways in which we might come alongside this small church.
